### Category Electrical - Rating Group 1

Electrical systems which have as their PRIMARY source of power as per Rule Part 66 Appendix B B.1 (d): DC generators, or starter generators, or alternators with self-contained rectifiers  
alternators with self-contained rectifiers

Excludes 1. complex electrical systems and 2. electrical systems and equipment installed in pressurised aeroplanes with an MCTOW > 5700kg

### Category Electrical - Rating Group 2

Electrical systems which have as their PRIMARY source of power as per Rule Part 66 Appendix B B.1 (d): DC generators, or starter generators,  
and have frequency wild alternators installed for secondary services, or constant frequency AC from alternators driven by CSD units

Excludes 1. complex electrical systems and 2. electrical systems and equipment installed in pressurised aeroplanes with an MCTOW > 5700kg

### Category Instrument - Rating Group 1

As per Rule Part 66 Appendix B B.1 (e) General aircraft instrument systems including basic flight instrument systems, oxygen systems, cabin pressurisation and airconditioning systems

Excludes 1. complex instrument systems and 2. integrated flight systems installed in pressurised aeroplanes with an MCTOW > 5700kg

### Category Instrument - Rating Group 2

As per Rule Part 66 Appendix B B.1 (e) Autoflight and navigation systems including air data computer systems, servo driven instruments,  
remote gyro systems including remote reading compasses, automatic flight control systems, inertial navigation systems

Excludes 1. complex instrument systems and 2. integrated flight systems installed in pressurised aeroplanes with an MCTOW > 5700kg

### Category Radio - Rating Group 1

As per Rule Part 66 Appendix B B.1 (f) Airborne communication systems including but not limited to UHF, VHF, CVR, audio, and ELT

Excludes 1. complex radio systems and 2. complete radio installations installed in pressurised aeroplanes with an MCTOW > 5700kg

### Category Radio - Rating Group 2

As per Rule Part 66 Appendix B B.1 (f) Airborne navigation systems, including ADF, VOR, ILS, VLF, marker beacon, GPS, and GNSS

Excludes 1. complex radio systems and 2. complete radio installations installed in pressurised aeroplanes with an MCTOW > 5700kg

### Category Radio - Rating Group 3

As per Rule Part 66 Appendix B B.1 (f) Airborne surveillance systems including weather radar, doppler, radio altimeter, DME, transponder, ADS-B systems and TCAS

Excludes 1. complex radio systems and 2. complete radio installations installed in pressurised aeroplanes with an MCTOW > 5700kg

### Electrical, Instrument, Radio Categories requiring Specific Type Ratings

**(1. Complex E,I&R, 2. Pressurised with MCTOW > 5700kg or 3. Other where type training will enhance aviation safety)**

Note: The license designator will be based on Category Aeroplane and Rotorcraft designator

Electrical	Aeroplane or Rotorcraft rating designation with the suffix ELEC added
Instrument	Aeroplane or Rotorcraft rating designation with the suffix INST added
Radio	Aeroplane or Rotorcraft rating designation with the suffix RAD added
