

Explain to your health practitioner that you require a DL9 Drivers medical certificate, with at least a Class 2 (2,3,4,5) medical certificate with passenger (P) endorsement, for learning to fly.

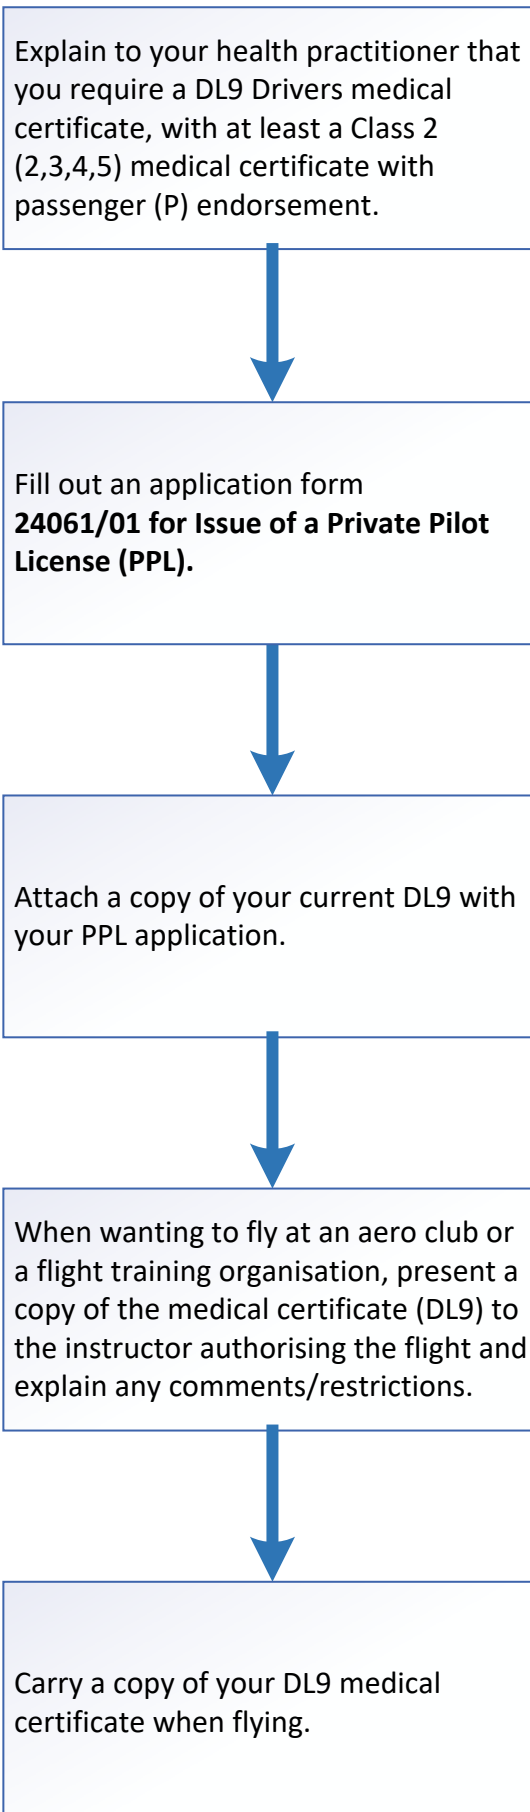

Show your flight instructor the DL9 certificate and explain any comments/restrictions. You will need a current DL9 to be able to go solo.

Once flying solo, carry a copy of your DL9 medical certificate while flying.

Use of NZTA DL9 Medical Certificates

Applying for a PPL

Use of NZTA DL9 Medical Certificates

Current PPL, CPL or ATPL holder

Explain to your health practitioner that you require a DL9 Drivers medical certificate, with at least a Class 2 (2,3,4,5) medical certificate with passenger (P) endorsement, to exercise the privileges of a PPL.

Ensure that you email licensing@caa.govt.nz CAA a copy of your DL9 medical certificate within 7 days of it being issued.

Ensure that you have a current BFR and understand the PPL privileges associated with holding a DL9 medical.

Always carry a copy of your DL9 medical certificate while flying.
