

IMPORTANT INFORMATION

Power banks and spare lithium batteries must travel in your **carry-on bag**

Never in your checked luggage

Lithium batteries can overheat and catch fire. If this happens in the cabin, crew can deal with it quickly and safely.

If any of these items are in your luggage for check-in, your airline requires you to **REMOVE THEM NOW.**

Spare lithium batteries

Power banks

Vapes

Earbuds

Hearing aid chargers

Power tool batteries

Drone batteries

Together,
we fly safer
