

Queenstown Airspace

Classification Review

You are invited to participate in the
Application of Class C Separation and Procedures Workshops
to be held on
Thursday 31 July and Friday 1 August 2014

Room 2, St John Ambulance Building
10 Douglas Street
Frankton

If the Queenstown airspace is re-designated as Class C, there may be changes to existing procedures for VFR operations. This issue was raised by users during the submission process. In order to consider acceptable solutions, it was agreed to hold workshops facilitated by the CAA.

At the workshops, there will be representatives from the CAA, Airways and the airlines. All we need now is your input to work through the problems identified.

Workshop Sessions

Helicopter operators	Thu 31 July	0900 – 1100
Skydiving operators	Thu 31 July	1100 – 1400
Part 135 and other fixed wing operators	Thu 31 July	1400 – 1700
Hang gliding and paragliding operators	Fri 1 August	0900 – 1200

Please RSVP by email to: paula.moore@caa.govt.nz, by 1600 Monday 26 July 2014, and advise which workshop you will be attending.
