Rules empower Notices

Existing CARs to be revoked

Existing CARs to be amended or replaced

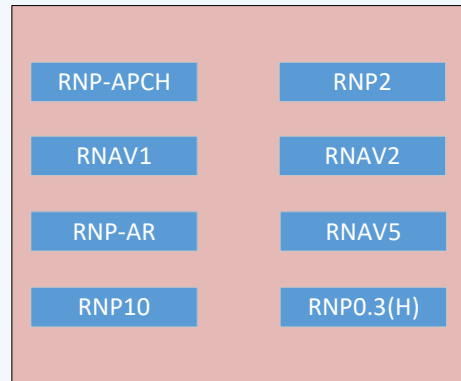

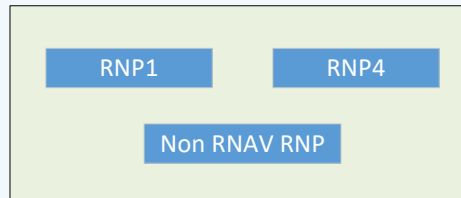

The new CARs to be added

Notices

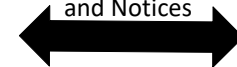

New Notices defining each Navigation Specification and specific requirements for meeting them

These will contain technical information that has been removed from the rule and instead placed into a Notice, to allow for future technology change and ensure quick amendment.

These draft Notices are an example of what the final Notices will look like, and the type of information they will contain.

ACs provide guidance to interpret the Rules and Notices

Advisory Circular

Advisory Circular(s) including Acceptable Means of Compliance and associated guidance material

AC 91.21
Operational Approvals -
Performance Based Navigation

New AC 91.XX
Extraction & Recovery
